

# Plitvice Lakes National Park Excursion

## Sunday 16.10.2022

Discover the captivating Plitvice Lakes National Park, consisting of 16 lakes interconnected by magnificent cascades and waterfalls nestled in the lush woods of continental Croatia. Embraced by high wooded mountains, one beneath another lie these beautiful lakes of crystal blue-green water. Connected to each other by a series of foaming cascades and thundering waterfalls, the lakes are fed by many rivers and streams. Over the millennia, waters of these lakes have dissolved the limestone rock and carved out the valley in which they now lie.

Morning pick-up at the hotel for a panoramic ride up hill and into the Lika region. Upon arrival to Plitvice, embark on the approximately 3-hour-long walking tour of the oldest Croatian national park and an UNESCO world heritage site which includes a boat ride on the Kozjak lake. Every nook and cranny of this rich vegetation is a wonderful place for birds, butterflies and game of all sorts to live. Each of the four seasons has its own little story of different colours, sounds and patterns. Words fail to describe the beauty and harmony of the Plitvice Lakes.

**Price per person: 95 EUR / 742,92 HRK**

The package includes:

- Full day professional guide service
- Guided tour of Plitvice lakes
- Lunch
- Return transfer from hotel

Duration: 07:30 – 19:00 (7:30AM – 7:00PM)
